PACKAGING & PRODUCT USE OPTIONS

NexTemp® Pro clinically accurate, single-patient thermometers are available three convenient packaging options:

BULK: sold by the box featuring 1,000 unwrapped thermometers; with approval from Medical Indicators, these thermometers can be used in packaging you create and produce yourself, for the most cost-effective option. With our NexTemp® Pro thermometers and your preferred printing partner, we can create a renewable revenue stream for your company, while providing your customers with a safe, accurate, reliable, and affordable thermometer option!

OVER WRAP: sold by the box, with 50 over wrapped thermometers per box, they are ideal for use in hospitals, healthcare centers, medical and first aid kits...and for sale in pharmacies, too! NexTemp® Pro over wrapped thermometers are more affordable than reusable digital thermometers AND they provide more accurate readings, and infection control benefits!

POCKET CARDS: individually-packaged thermometers, small enough to fit in your wallet, with each card containing one NexTemp Pro® thermometer. Available in stock designs, as well as the option to fully customize your cards! Include your customers' logo, colors, text & images for a truly creative, and useful, custom-branded promotional item!
